PROFILE

I am a great software engineer and very active, I like to create good web pages.
Always motivated to learn new things and grow professionally.

EXPERIENCE

FRONTEND DEVELOPER
Rankmi | August 2021 - January 2022

- Build user interfaces with React library, Typescript, also use Sass and Tailwind for styles.
- Additionally use Ruby on Rails on the platform.
- Add new features to the platform.

FULL STACK DEVELOPER
No country | March - April 2022

- A collaborative project was developed on an ecommerce for a vegetarian restaurant called 'Veride'.
- Use tools like Ruby on Rails, Postgresql, React, Sass, Javascript.
- My role was to perform both backend and frontend
